2012 Catalog

Vectra® Genisys

Do you prefer in-depth customization or simple preset controls? Now you can have both.

If you're a therapist with a knack for technology, you're going to love the Vectra Genisys. Feature-rich software and advanced engineering give you direct control over multiple parameters so you can program treatments to meet even the most complex challenges. And the on-board Graphical Library can help you educate your patients.

If you're a therapist who likes to simplify treatment setup, our user-friendly interfaces and intuitive on-board software provide you with the ultimate in ease of use. In fact, most therapies can be started in just a few steps.

Modularity for ultimate treatment versatility

With six seamlessly integrated modalities under one roof, (ultrasound, electrotherapy, ultrasound/electrotherapy combination, laser, sEMG, and sEMG + stim) your choice of therapy is now available from a single system. Don't need all of these treatment options right away? No problem. The Vectra Genisys' sleek modular design lets you simply add them on later.

Modularity doesn't stop with the unit. All ultrasound and laser applicators are interchangeable and feature Electronic Signature™ for automatic recognition by the unit. Simply plug them in and go. Additionally, ultrasound applicators have a head warming feature for patient comfort and are waterproof for underwater treatments.

Electrotherapy Features

Clinical Protocols and Indications for

- Acute pain*
- Chronic pain*
- Increased localized circulation*
- Preventing or retarding disuse muscle atrophy*
- Muscle re-education*
- Joint range of motion*
- Stroke muscle re-education*

User-defined protocols

Resource library

Patient documentation

Two or four channels with or without sEMG

Ultrasound Features

Clinical Protocols and Indications for

Relief of pain and joint contractures

Relief of pain and joint contractures that may be associated with:

- *Adhesive capsulitis*
- *Bursitis with slight calcification*
- *Myositis*
- *Soft tissue injuries*
- *Shortened tendons due to past injuries and scar tissues*

Relief of sub-chronic and chronic pain and joint contractures resulting from:

- *Capsular tightness*
- *Capsular scarring*

Four convenient sizes of sound heads with head warming feature

Electronic Signature™ on all sound head applicators for easy interchangeability

Laser Features

Clinical Indications for

- Temporary increase in local blood circulation*
- Temporary relief of minor muscle and joint aches, pains and stiffness*
- Relaxation of muscles*
- Temporary relief of muscle spasms*
- Temporary relief of minor pain and stiffness associated with arthritis*

Eight interchangeable laser applicators in a wide range of strengths and sizes to meet any treatment need

Electronic Signature™ on all applicators

Provides laser, SLD and LED therapy

Intuitive Navigation

Step-by-step protocols to simplify your treatments

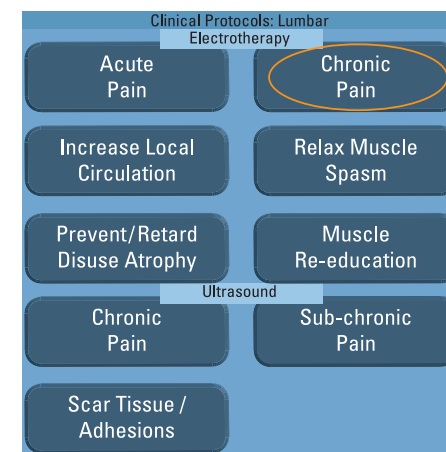

While most electrotherapy and ultrasound devices focus on delivering effective, safe treatment to the patient, Vectra Genisys goes a step further; — actually it's more like a leap — we designed it for **you**.

With our on-screen onboard help in patient education, electrode placement, treatment protocols and anatomical libraries, you can quickly and easily choose the proper treatment or patient information through step-by-step graphical presentations.

Want more options to broaden your treatments? Our onboard protocols provide you with a list of FDA-cleared indications for treatment, and its Patient Data Cards ensure that your patients receive consistent treatment each visit, regardless who administers it.

SEMG to help facilitate muscle re-education and recruitment

By reading the electrical signals muscles produce when used, surface electromyography (sEMG) provides direct, measureable feedback. This optional feature allows you to make treatment decisions by ensuring the proper muscle is being recruited, if it is being worked to the optimum level and to determine results based on quantifiable data. sEMG is an excellent tool in evaluating functionality of skeletal muscles and in helping with neuromuscular training and rehabilitation.

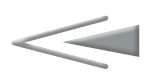

Clinical Resources

 In Clinical Protocols, select the body part you would like to treat. A list of indications by modality will appear.

For every indication there is a waveform description and electrode/ultrasound placement diagram.

Indications include: acute pain, chronic pain, increase local circulation, preventing/retarding disuse muscle atrophy, muscle re-education, joint range of motion and stroke re-education.

Apply electrodes (or applicator placement for ultrasound) and begin treatment. Vectra Genisys will deliver the treatment you designated and alert you when treatment is complete.

 Need to review? You can always go back to your previous screen with the back button.

The Home Screen

 Your options are clearly marked so you can get right down to business.

Graphical Library

The Vectra Genisys Graphical Library contains full color anatomical and pathological libraries.

Use the library to help educate your patients prior to treatment.

Vectra® Genisys Therapy Systems

Electrotherapy Systems with EMG

- 2764** 2 Channel System
- 2792** 2 Channel System with Cart
- 2787** 4 Channel System
- 2798** 4 Channel System with Cart

Electrotherapy Systems without EMG

- 2871** 2 Channel System
- 2873** 4 Channel System

Combination Systems with EMG

- 2761** 2 Channel Combination System
- 2792** 2 Channel Combination System with Cart
- 2789** 4 Channel Combination System
- 2796** 4 Channel Combination System with Cart

Combination Systems without EMG

- 2872** 2 Channel Combination System
- 2876** 2 Channel Combination System with Cart
- 2874** 4 Channel Combination System
- 2878** 4 Channel Combination System with Cart

Vectra® Genisys Modules

- 2758** Laser Module
- 2767** Battery Module
- 2781** Module for Channels 3 & 4

Ultrasound Applicators

- 27333** 1cm² Sound Head Applicator
- 27334** 2cm² Sound Head Applicator
- 27335** 5cm² Sound Head Applicator
- 27336** 10cm² Sound Head Applicator

Leadwires

- 27321** sEMG Leadwire Channel 1 (pair)
- 27322** sEMG Leadwire Channel 2 (pair)
- 27312** Electrotherapy Leadwire Channel 1
- 27313** Electrotherapy Leadwire Channel 2
- 27314** Electrotherapy Leadwire Channel 3
- 27315** Electrotherapy Leadwire Channel 4

Laser Applicators

Single Laser Diode

- Ideal for treatment areas from 1cm² to 4cm²

- 27840** 850 nm Single Diode Laser 100mW
- 27841** 850 nm Single Diode Laser 200mW
- 27805** 820 nm Single Diode Laser 300mW

9 Diode Cluster

- Ideal for treatment areas from 5cm² to 10cm²
- Four LEDs and five Laser Diodes

- 27811** 9 Diode Cluster 540mW
5 x 850 nm 100mW Laser
4 x 670 nm 10mW LED
- 27812** 9 Diode Cluster 1040mW
5 x 850 nm 200mW Laser
4 x 670 nm 10mW LED

13 Diode Cluster

- Ideal for treatment areas from 5cm² to 10cm²
- Seven LEDs, three SLDs and three Laser Diodes

- 27814** 13 Diode Cluster 415mW
3 x 850 nm 100mW Laser
3 x 950 nm 15mW SLD
7 x 670 nm 10mW LED
- 27816** 13 Diode Cluster 715mW
3 x 850 nm 200mW Laser
3 x 950 nm 15mW SLD
7 x 670 nm 10mW LED

33 Diode Cluster

- Ideal for larger treatment areas up to 20cm²
- Twelve LEDs, sixteen SLDs and five Laser Diodes

- 27808** 33 Diode Cluster 1440 mW
5 x 850 nm 200mW Laser
8 x 880 nm 25mW SLD
8 x 950 nm 15mW SLD
12 x 670 nm 10mW LED

System Accessories

- 27508** Operator Remote - Channels 1 & 2
- 27079** Operator Remote - Channels 3 & 4
- 2775ASY** Vectra Genisys System Cart
- 27133** Vectra Genisys Carry Bag
- 79977** High Volt Probe Kit
- 27465** Patient Data Cards (25 pack)
- 27167** sEMG Data Card

Technical Specifications

Vectra® Genisys Therapy System

Mains Power : 100-240 VAC, 50/60 Hz
 Product Weight : 24 lb (10.9 kg)
 Product Length : 16.25 in (41.3 cm)
 Product Width : 17 in (43.2 cm)
 Product Height : 42.50 in (108 cm)
 Shipping Weight : 33 lb (15.0 kg)
 Safety Tests : UL/IEC/EN 60601-1; IEC/EN 60601-1-2; IEC 60601-2-5; IEC 60601-2-10; CAN/CSA C22.2 No. 601.1-M90 w/A2 Class 1

 Electrical Class : Electrotherapy and sEMG Type: BF
 Ultrasound Type: B

Vectra® Genisys Ultrasound

Mains Power : 100-240 VAC, 50/60 Hz
 Product Weight : 5 lb (2.3 kg)
 Product Length : 12.9 in (32.8 cm)
 Product Width : 11.3 in (28.8 cm)
 Product Height : 6.4 in (16.3 cm)
 Shipping Weight : 16 lb (7.3 kg)
 Safety Tests : UL/IEC/EN 60601-1; IEC/EN 60601-1-2; IEC 60601-2-5; CAN/CSA C22.2 No. 601.1-M90 w/A2 Class 1, Type B

 Electrical Class : Class 1, Type B

Vectra® Genisys Laser

Mains Power : 120-240 VAC, 50/60 Hz
 Product Weight : 5 lb (2.3 kg)
 Product Length : 12.9 in (32.8 cm)
 Product Width : 11.3 in (28.8 cm)
 Product Height : 6.4 in (16.3 cm)
 Safety Tests : 21CFR 1040.10 & 1040.11, IEC/UL/EN 60601-1, IEC/EN 60601-1-2, IEC/EN 60601-2-22, IEC 60825-1:2001 Class 1, Type B Laser Class : 3B

 Electrical Class : Laser Class : 3B

Vectra® Genisys Transport Therapy

Vectra® Genisys Transport Laser

2784 Transport

The Vectra Genisys Laser brings you the most up-to-date treatment methods with a large, easy-to-read graphical display, a selection of useful clinical indications, a logical control system that simplifies treatment choices, and four different size applicators.

With a myriad of treatment options like pulsed and continuous operation; independent control over all parameters; real-time dosage feedback and fully variable range of range of intensity, pulse rate and dosage, you can control and tailor your laser treatment.

Portable Accessories

- 27467 Carry Bag
- 27478 Battery Pack

Clinic Accessories

- 2883 Cart Adapter (Blue)
- 2775ASY Therapy Cart

Ultrasound Accessories

Conductor™ Transmission Gel

- 4238 1.3 Gallon (5 Liter) Container includes one 8.5 oz. refill container
- 4248 8.5 oz. (250 ml) Bottle (24/case)

Intellect® Ultrasound Gel

- 4266 1.3 Gallon (5 Liter) Container includes one 8.5 oz. refill

Myossage Lotion®

- 4210 1 Gallon (3.8 liter) Bottle
- 4208 8.5 oz. (250 ml) Bottle (12/case)
- 4212 Plastic Measuring Pump

Ultra-Myossage® Lotion

- 4262 1 Gallon (3.8 liter) Bottle
- 4260 8.5 oz. (250 ml) Bottle

TM-1 Electric Lotion Warmer

- 4012 TM-1 Electric Lotion Warmer (110V only)

Electrotherapy Accessories

DURA-STICK® Premium Self-Adhesive Electrodes (10 packs of 4 each, 40/case)

- Pure conductive silver layer
- Choice wire and molded connectors
- Provides optimal current dispersion with low impedance

- 42170 Dura-Stick Premium 1.25" Round Stainless Steel Mesh and Blue Gel
- 42171 Dura-Stick Premium 2" Round Stainless Steel Mesh and Blue Gel
- 42172 Dura-Stick Premium 1.5" x 2.5" Oval Stainless Steel Mesh and Blue Gel
- 42173 Dura-Stick Premium 3" x 5" Oval Stainless Steel Mesh and Blue Gel (20/case) (10 packs of 2)
- 42174 Dura-Stick Premium 2" Square Stainless Steel Mesh
- 42175 Dura-Stick Premium 2" x 3.5" Rectangle Stainless Steel Mesh and Blue Gel
- 42176 Dura-Stick Premium 2" Square Stainless Steel Mesh and Blue Gel
- 42177 Dura-Stick Premium 1.5" x 3.5" Rectangle Stainless Steel Mesh and Blue Gel

Dura-Stick Accessories (not shown) (10/case)

- 42046 High Volt Accessory Kits 5" x 8" Rectangle Dispersive Electrode
- 42068 High Volt Accessory Kits 5" x 8" Rectangle Dispersive and Two 2" (5 cm) Round Self-Adhesive Electrodes
- 42070 High Volt Accessory Kits 5" x 8" (13 cm x 20 cm) Self-Adhesive Dispersive and Two 12" (30 cm) Alligator Clip Lead Wire Connectors

DURA-STICK II Self-Adhesive Electrodes (10 packs of 4 each, 40/case)

- Our most popular electrode.
- Unique silver printed conductive layer
- Flexible and sturdy design for durability and ease of use

- 42045 Dura-Stick II 2.75" x 5" Rectangle (7 cm x 13 cm)

DURA-STICK® Plus Self-Adhesive Electrodes (10 packs of 4 each, 40/case)

- Our most economical electrode.
- Carbon conductive film incorporated into a flexible spun lace backing
- Permagel™ Hydrogel for superior conformability to body contours

- 42159 Dura-Stick 1.5" x 2.5" Oval Blue Foam Backing
- 42181 Dura-Stick 2" x 3.5" Rectangle Blue Foam Backing
- 42182 Dura-Stick 2" Round Blue Foam Backing
- 42183 Dura-Stick 2" Square Blue Foam Backing
- 42160 Dura-Stick 2" x 4" Oval Blue Foam Backing
- 42185 Dura-Stick sEMG Round White (100 pk/individual)

Conductive Rubber Electrodes (not shown)

- 72852 Black Rubber Carbon 3" (8 cm) Round (2x)
- 72853 Red Rubber Carbon 3" (8 cm) Round (2x)

DURA-STICK Self-Adhesive Electrodes (10 packs of 4 each, 40/case)

- Carbon silver film layer incorporated into a low profile design
- White foam backing for increased "stretchability" and memory
- Innovative polymer for improved adhesion and durability

- 42160 Dura-Stick 2" x 4" Oval White Cloth Backing with Carbon Film Conductive Material
- 42178 Dura-Stick 2" Square White Cloth Backing with Carbon Film Conductive Material
- 42179 Dura-Stick 2" x 3.5" Rectangle White Cloth Backing with Carbon Film Conductive Material
- 42180 Dura-Stick 2.25" x 2.5" Disposable White Cloth Backing with Carbon Film Conductive Material

Nylatex® Wraps

- Ideal for holding cold packs in place
- Several sizes available
- Reusable

Nylatex Assortment

(1 pack of 9 rolls)

- 1200 Nylatex Assortment One of each size shown above (Items 1213, 1219 and 1264, not shown)

Nylatex Individual

(3 rolls per package)

- 1202 2.5" x 18" (6 cm x 46 cm)
- 1264 2.5" x 24" (6 cm x 61 cm)
- 1204 2.5" x 36" (6 cm x 91 cm)
- 1206 2.5" x 48" (6 cm x 122 cm)
- 1208 4" x 18" (10 cm x 46 cm)
- 1210 4" x 36" (10 cm x 91 cm)
- 1212 4" x 48" (10 cm x 122 cm)
- 1213 4" x 60" (10 cm x 152 cm) (not shown)
- 1214 6" x 18" (15 cm x 46 cm)
- 1216 6" x 36" (15 cm x 91 cm)
- 1218 6" x 48" (15 cm x 122 cm)
- 1219 6" x 60" (15 cm x 152 cm)

Returns and Repairs Policy (effective April 1, 2011)

All products or items returned to any DJO Global location must have a Returns Authorization (RA) number so that we can identify and correctly credit/resolve your returned item(s).

Important Note: Any products returned without the RA number marked clearly on the outside of the shipping container/box will be refused and returned to the sender.

For the safety of our employees and work locations, we cannot accept any unmarked packages. As an international importer and exporter we must maintain strict compliance with the Customs Trade Partnership Against Terrorism (CTPAT).

It is required that when you need to return a product, you must first call your customer service representative and obtain the necessary RA number. Using a dark permanent marker, please write the RA number in large letters/numbers clearly on the outside of the box.

RA Procedure:

1. Contact your customer service representative at 866.512.2764 to obtain RA reference number.
2. Clearly write the RA number (using dark permanent marker) in several locations on the box for easy reference.
3. Ship product to correct DJO Global location as instructed by customer service representative.

Thank you for your business.
