

URETHANE COATED KETTLEBELL

NEW Urethane Coated Kettlebell

For over 300 years, the Russians have been evolving the Kettlebell to be a brutally effective tool for developing strength, power and mutant work capacity. Kettlebells returned to America in 2001 and their popularity has grown steadily each year. Hampton now offers a premium quality, Russian classic design, urethane coated Kettlebell ranging from 5 to 50 pounds to match the needs of the rapidly growing army of Kettlebell enthusiasts for home use or for the health clubs where they may train. Grab the handle of true "old school" training and understand what real functional strength is all about.
